Ms Julie Sellick
Department of Ecology
4350 - 150th Avenue North East
Redmond, Washington 98052

Dear Julie:

The Earle M. Jorgensen Company has incorporated three changes into the baghouse dust pelletizing operation. The changes were made to improve efficiency and reduce personnel exposure to baghouse dust.

- 1) The pelletizing crew size has been reduced from two to one person.
- 2) Disposable safety wear, Dura-fab #3213-17 will be disposed of in the same manner as baghouse pellets.
- 3) Respirator (#7700-30M with cartridge and Filter #7500-83).

If you have any questions regarding these changes please contact me.
